Summer Course Descriptions

PSY 111 - Developmental Psychology: 3 Credits. This course is a multi-disciplinary study of lifespan development from prenatal and postnatal stages through infancy, childhood, adolescence, adulthood, old age, and death. Included will be discussions of genetic, environmental, psychological, and sociological influences of the development of and changes in physical, cognitive and language, and psychosocial domains of individuals. This is an online-hybrid course, meaning the class will physically meet occasionally but a majority of work will be completed online.

SOC 201 - Sociology of Aging: 3 Credits. This course surveys the biological, social psychological and social aspects of the aging process. Students study aging as a developmental stage and explore current issues such as ageism, mandatory retirement, sex, crime, and intergenerational communications. Topics covered include social conditions, economics, and politics as they affect the aged, as well as community responses to the problems confronting the elder population. Students examine public, voluntary, and self-help (advocacy) programs and assess their ability to meet the needs of aging adults in such areas as recreation, income maintenance, retirement, housing, transportation, mental and physical health. This is an online-hybrid course, meaning the class will physically meet occasionally but a majority of work will be completed online.

Fall Course Descriptions

BUS 100 - Understanding Business: 3 Credits. The purpose of this course is to introduce students to the nature and structure of business in the United States. The scope of the course will include an overview of the functional areas (i.e. finance, marketing, etc.) as well as the terms and concepts used in modern organization.

COM 100 Public Speaking 3 Credits. This course provides the student with training and experience in researching, organizing, and presenting various types of oral presentations. Topics covered include audience analysis, speech organization, delivery techniques, and the use of visual aids, including Power-Point. Narrative, informative/demonstration, persuasive, and group presentations are required.

ENG 101 - College Writing: 3 Credits. College Writing is designed to expose students to the range of writing most likely to be encountered in the academic setting, and the skills most helpful in writing for all purposes. The course provides students with instruction and practice in writing clear arguments and expository prose. Emphasis is on the writing process, revising and editing. Students are expected to use the library to research a contemporary issue and use either the MLA or APA citation style to document sources. This course is taught using a computer network. *Prerequisites: Successful completion of both a) CMCC writing assessment, or ESL 101 or instructor permission and b) CMCC reading assessment, or ENG 050.*

ENG 125 - Introduction to Literature: 3 Credits. Introduction to Literature introduces the student to a variety of ways to think and write about the three literary genres: short fiction, poetry and drama. Through close textual readings, class discussions, and writing assignments, students will learn to think critically and to write confidently about literary works, as well as to discuss such texts with an understanding of literary terms. This course is designed for transfer into a four-year program.
Prerequisite: Successful Completion of ENG 101 (C or better).

MAT 100 Intermediate Algebra: 3 Credits. This course covers the fundamentals of algebra including the real number system, solving equations and formulas, graphing equations, systems of linear equations, factoring and fractional expressions, quadratic equations, exponents and radicals. *Prerequisite(s): MAT 050 or HS Algebra I (C or better) and minimum 40th percentiles on Arithmetic and Algebra Assessment & Placement Tests, or Math SAT 480*

MAT 101 - Business Mathematics: 3 Credits. This course is designed to develop the computational and vocabulary skills necessary for: retailing, marketing, accounting, finance and business management. Topics studied include: interest, banking, depreciation systems, payroll, statistics and graphics. It includes expanded application of algebraic principles through the study of quadratics and linear equations to business problems including standard of deviation and co-efficient of variation to quality control problems. *Prerequisite: MAT 030 or HS Algebra I (C or better) and minimum 40th percentile on Arithmetic and 20th percentile on Algebra Assessment & Placement Tests, or Math SAT 480.*

MET 111 Medical Terminology: 3 Credits. This is an entry level medical terminology course designed to introduce the student to terms and language commonly found in the medical and health care professions. The student builds vocabulary through the study of word structure by learning prefixes, suffixes and root words. This will be a video conference course.

SOC 215 – Sociology of Gender: 3 Credits. This course will examine gender from a sociological perspective. Factors that affect gender relations, inequality and communication will be discussed, with special emphasis given to theoretical approaches, socialization, and power differentials. How gender is implicated in our social institutions such as the educational system, workplace, family, criminal justice system, and government will be explored. Topics will include: gender in education, gender and work, gender in intimate relationships and gender, crime and justice. This is an online-hybrid course, meaning the class will physically meet occasionally but a majority of work will be completed online.
